

Healing the Light Body Training – South July 19,20,21

Medicine Wheel and Light Body Training Program Location: Laguna Canyon Spa, California - 2009

Peruvian Mountain of Ausungate – Journey 2008

South: This training is for a professional shamanic training program. When you began the first direction of the medicine wheel, shedding your past as the serpent sheds its skin, you created a mesa, a shamanic medicine altar, with three stones that are initiated connecting to nature and the lineage. You released major themes or patterns in your life. Now you will learn the illumination process where we clear the imprints from the Luminous Energy Field. This includes a wide range of healing arts skills including:

- Discussion with a client on major themes to guide a session –Intake
- Tracking, Sensing, and Scanning the Light Body for energy imprints and chakra identification
- Testing the chakra with a pendulum and muscle testing
- Using the mesa stones or cuyllas for energy release with a client
- Clearing the chakra directly
- Sensing the shape, spin, size, and balance within a chakra
- Illumination of the chakra from the 8th chakra
- Integration of a session on all four levels of engagement –physical, emotional, mythic, and energetic
- Follow up Mythic Processes to recommend to a client and Exit Process

This brings about energy shifts and healing at the level of the blueprint of your being and essence. The Light Body three day class is \$500. Full payment is due to reserve your spot.

The training program will continue over the next two years. There is a makeup Medicine Wheel class on July 16,17,18 at Kensho Awareness Center in Laguna, CA.
